

2nd Annual Southern Odyssey Relay Run Adventure

October 14-15, 2011
Leg 24 in Amicalola Falls State Park

Below are the unofficial results of the Leg 24 competition. As you may or may not know, this competition was conducted on an informal basis this year. We were not able to officially and accurately time to the second the runners' efforts here.

According to our calculations, the average time was 33.5 minutes.

We still are in the process of determining the Fastest Man and Fastest Woman.

As for Fastest Man, we believe that the winner was the runner for Team No. 46, Chris Rodriguez. Chris's team reported that he ran a 23:02. The other runner in contention is the runner for Team No. 42, John Neal Scott. He ran a time just north of 24 minutes. We still need someone from that team to confirm his actual time.

As for the Fastest Woman, we believe that the winner is either Megan from Team No. 39 or Jenn from Team No. 34. We need those teams to confirm the actual times of these runners. In addition, we need Team Nos. 20, 21, 22, 43, and 47 to confirm that the runners on their respective teams were men, not women. If any of these teams had a female runner, please let us know.

Please contact Eric Lerude at eric@odysseyrelays.com if you have information to assist in determining the winners or if you have any other information or questions about these results.

We hope you enjoyed Leg 24, as difficult as it was. It is an epic leg, so why not have some fun and stage a time trial on it.

Would you like to see a more official time trial? If so, we will take steps to more accurately time it in the future.

LEG 24 RESULTS

Team	Time
46	24
42	24
20	26
22	27
43	28
47	29
21	30
39	30
34	30
11	31
17	31
23	31
32	31
